Appl. No. 10/053,758 Amdt. dated March 19, 2007 Reply to Office Action of October 27, 2006

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings of claims in the application:

Listing of Claims:

- 1. (Previously presented) A monoclonal or recombinant antibody or antigen binding fragment thereof that specifically binds to human telomerase reverse transcriptase (hTRT) protein (SEQ. ID NO:225).
- 2. (Previously presented) Angantibody fragment that specifically binds to hTRT protein (SEQ. ID NO:225).
- 3. (Original) The antibody fragment of claim 2, which is an Fab fragment or an F(ab')₂ fragment.
- 4. (Previously presented) The antibody or antigen binding fragment of claim 1, which is a human antibody.
- 5. (Previously presented) The antibody or antigen binding fragment of claim 1, which is a single chain antibody.
- 6. (Previously presented) A composition comprising the antibody or antigen binding fragment of claim 1 and a pharmaceutically acceptable carrier.
- 7. (Previously presented) The antibody or antigen binding fragment of claim 1, having a reporter molecule or label that is covalently or noncovalently bound.

Appl. No. 10/053,758 Amdt. dated March 19, 2007 Reply to Office Action of October 27, 2006

8. (Previously presented) The antibody or antigen binding fragment of claim 7, wherein the reporter molecule or label is selected from an enzyme, a fluorescent agent, a chemiluminescent agent, a chromatogenic agent, and a magnetic particle.

9-24. (Cancelled).

26. (Previously presented) The antibody or antigen binding fragment of claim 1, which specifically binds to a polypeptide comprising SEQ. ID NO:67.

26. (Cancelled).

(Previously presented) A monoclonal antibody specific for hTRT (SEQ. ID NO:225), obtainable by immunizing a non-human animal with SEQ. ID NO:225, and then isolating monoclonal antibody that binds SEQ. ID NO:225 from an antibody-producing cell line generated from the immunized animal.

28. (Previously presented) A monoclonal antibody specific for the hTRT fragment SEQ. ID NO:67, obtainable by immunizing a non-human animal with SEQ. ID NO:67, and then isolating monoclonal antibody that binds SEQ. ID NO:67 from an antibody-producing cell line generated from the immunized animal.

29-31. (Cancelled).
